This is a Fundraiser for **Rutherford County Crimson Tide.** We are selling **Tide** and **Gain** Formula Laundry Detergent and **Downy** Fabric Softener in **5 gallon** containers. All formulas were available in regular and high-efficiency, **but now we have one formula for both**. All products are **$50.00** each and come with a dispensing pump.

Wal-Mart's price $17.97 each - (as of 11/11/2013)
150 oz. (96 loads) x 4.5 containers

Your cost would be **$80.87**

=

1 container 672 oz. each
350 – 500 loads

Your cost **$50**

Our 5 gallon containers are 672 oz. each. The largest containers found at various retailers are usually 150 ounces. Typically, they sell for nearly $20.00 or more. If you bought two containers for $40.00 for a total of 300 ounces, you still are far short from our 5 gallon pail of 672 ounces. That's less than half the price! This will last 350 -500 loads depending on load size. This is a great fundraiser and a better value for you!

Can the Your RCCT Team count on your support this year?
